

General Motors announces revised 2008 build-out dates and launch dates for select models

Apr-3-2008

General Motors has announced revised 2008 build-out dates for select models, extending them beyond today's original order submission deadline. Since build-out information is subject to frequent changes, PHH recommends you submit your orders as soon as possible.

Please note that General Motors has changed the 2009 launch dates on these models to "TBD". We believe this supports GM's plan to build all 2008 orders submitted on or before the final transmission date, in spite of the current plant closings related to the ongoing American Axle/United Auto Workers strike.

As PHH has done in the past, we have included two important dates concerning the build-out of these vehicles.

- "Last Day to Transmit"**
 This is the actual order cut-off date provided by the motor company. Orders submitted after that date are always submitted on a "will try" basis.
- "Orders Due at PHH"**
 This is the date by which PHH expects to have orders to ensure ample processing time. We will continue to accept orders up to the last day to transmit, but submission cannot be assured.
